PROFESSIONAL PROFILE

Health Professions Educator with over 15 years of experience in undergraduate and postgraduate medical and health professions education. Expertise spans curriculum design, competency-based education, student assessment, blueprinting, psychometric analysis, program evaluation, accreditation, and faculty development.

Experienced in teaching and coordinating postgraduate programs in Health Professions Education and contributing to the development and review of program specifications, curriculum documentation, and academic proposals for accreditation and approval by higher education authorities.

Demonstrated leadership in assessment reform, educational technology integration, and quality assurance systems.

Committed to evidence-informed teaching practice, continuous improvement, and the advancement of postgraduate medical education through rigorous program design and scholarly teaching.

Proficient in digital learning design, generative AI applications in education, and data-driven decision-making.

CORE AREAS OF EXPERTISE

Medical & Health Professions Education	Program Evaluation & Quality Assurance
Postgraduate Program Design & Approval	Accreditation Preparation & Documentation
Program Specifications & Academic Proposals	Faculty Development & Training
Curriculum & Program Development	Educational Technology & Digital Learning
Competency-Based Medical Education (CBME)	Generative AI for Education
Student Assessment & Blueprinting	Data Science & Educational Analytics
Item Analysis & Psychometrics	Program Coordination & Administration

PROFESSIONAL EXPERIENCE

Senior Lecturer – Medical Education & Ultrasound Imaging | Jazan University, Saudi Arabia | 2011 – 2023

Assessment & Quality Leadership

- Directed assessment reform: designed blueprinting systems, standard-setting procedures, psychometric analysis workflows, and question banking aligned with competency frameworks.
- Head, Student Assessment Committee (2013–2014): developed assessment policy, blueprints, integrated question construction guidelines, and content validity assurance processes.
- Maintained college contribution to the IDEAL (Intentional Shared Medical Students Assessment Banks) international database.
- Developed and maintained a local question bank of valid and reliable items with metadata tagging (topic, difficulty, competency alignment).

Program Evaluation & Accreditation

- Head, Program Evaluation Unit (2015–2018): defined evaluation models, developed policies and procedures for systematic stakeholder feedback (students, staff, graduates, alumni), reported findings, and drove corrective action planning in line with ETEC guidelines.
- Contributed to curriculum reform, accreditation preparation, and quality assurance documentation for Faculty of Medicine.
- Successfully supported the faculty through accreditation review cycles; developed evaluation frameworks and corrective strategies.

Faculty Development

- Designed and delivered 100+ faculty development workshops covering learning principles, educational objectives, assessment design, blueprinting, MCQ construction, item analysis, validity/reliability, course specifications (NCAAA/ETEC format), course reports, and small group learning.
- Recognized as Outstanding Facilitator for CPD workshop sessions (2012–2013).

Teaching & Curriculum

- Taught Professionalism & Bioethics, Radiology, and Ultrasound Technique to undergraduate medical and applied medical students.
- Contributed to the reform of Early Clinical Experience and Communication Skills curricula.
- Developed interactive HTML/JavaScript study guides and digital assessment tools now widely used across courses.

Administrative Roles

- Head, Documentation Committee – Deanship for Quality and Development (2012–2013).
- Member, Medical Education Unit; Reporter, Quality and Excellence Unit; Member, Exams Control Unit.
- Member, Student Assessment Unit (2011–2015).

Program Coordinator & Postgraduate Lecturer – Health Professions Education | University of Sinnar | 2024 – Present

- Lead the development and review of the Master program specifications, curriculum documentation, and academic proposals in preparation for accreditation and formal approval by higher education authorities.
- Coordinate academic and administrative activities supporting postgraduate program delivery, student assessment, and quality assurance.
- Teach postgraduate modules, design learning outcomes, contribute to assessment blueprinting, and develop program-level academic documentation aligned with accreditation standards.
- Liaise between faculty, students, and institutional bodies to ensure smooth program operations and compliance with national higher education requirements.

Lecturer – Human Anatomy | College of Medicine, University of Medical Sciences & Technology (UMST) | 2025 – Present

- Teach human anatomy to undergraduate MBBS students; design learning resources and contribute to assessment activities.
- Develop digital and interactive study materials to enhance student engagement and self-directed learning.

Medical Licensing Examinations Manager / Vice Head, Examination Department | Sudan Medical Council | 2004 – 2010

- Managed national medical licensing examination processes, including computer-based examination systems, question banking, quality review, and performance analysis.
- Created and maintained national question banks with metadata tagging; produced candidate performance analytics for regulatory and accreditation bodies.
- Contributed to accreditation activities as Reporter, Accreditation Committee of Medical Schools.
- Played a key role in developing and implementing the computer-based examination system at the Sudan Medical Council.

Teaching Assistant – Human Anatomy | University of Juba, Faculty of Medicine | 2001 – 2003

- Taught anatomy to undergraduate medical students; supported practical sessions and student assessment.

Teaching Assistant – Anatomy Department (Part-time) | Upper Nile University | 2003 – 2006

Resident Medical Officer – Orthopedics | Khartoum North Teaching Hospital | 2000

EDUCATION & QUALIFICATIONS

- **Post Graduate Program (PGP) – Data Science & Business Analytics** | McCombs School of Business, University of Texas at Austin | 2025
- **Fellowship – Program Evaluation and Educational Research** | University of Illinois at Chicago (UIC), USA | 2014
- **Master of Health Professions Education (MHPE)** | Maastricht University & Suez Canal University | 2012
- **MSc – Diagnostic Medical Ultrasound** | Al-Zaiem Al-Azhari University, Sudan | 2010
- **MBBS** | Carol Davila University of Medicine and Pharmacy, Bucharest, Romania | 1996

PROFESSIONAL CERTIFICATES & ADVANCED TRAINING

- **Generative AI for Natural Language Processing Program**- Great Learning, October 2025
- **Certificate in Assessment of Professional Competence**- Maastricht University, 2016
- **Certificate in Simulated and Standardized Patients**- Maastricht University, 2015
- **Certificate in Advanced Topics in Problem-Based Learning**- Maastricht University, 2013
- **Certificate in Curriculum and Course Design in Medical Education**- Maastricht University, 2012
- **Certificate of Completion – New Trends in E-Learning**- Jazan University & Rollins College, USA, 2014
- **Certificate in SQL Server & Database Management**- Aptech Computer Education, Khartoum, 2008

FACULTY DEVELOPMENT WORKSHOPS DELIVERED

Topics regularly delivered to faculty at Jazan University and continuing professional development programmes:

• Principles of Learning & Adult Learning Theory	• Purpose and Methods of Student Evaluation
• Construction of Educational Objectives	• Course Specification (NCAAA/ ETEC Format)
• Principles of Student Assessment & Blueprinting	• Course Report Writing (NCAAA/ ETEC Format)
• How to Construct High-Quality MCQs	• Small Group & Problem-Based Learning
• Common Flaws in MCQ Writing	• Early Clinical Experience & OSCE
• Item Analysis & Psychometric Reporting	• Digital Learning & E-Learning Technologies
• Table of Specification, Validity & Reliability	• Competency-Based Medical Education

SELECTED LEADERSHIP & ACHIEVEMENTS

- Contributed to the development and successful approval of two postgraduate programs by Sudanese higher education authorities, including full program specifications, curriculum documentation, and academic proposals for accreditation.
- Directed development and implementation of Assessment Policy, Regulations, and Guidelines for the Faculty of Medicine, Jazan University.
- Led comprehensive Program Evaluation activities, aligning with ETEC guidelines and driving continuous quality improvement.
- Successfully reformed Early Clinical Experience and Communication Skills curricula at Jazan University.
- Pioneered the development and implementation of the computer-based examination system at Sudan Medical Council.
- Built standardized question banking systems and rubric frameworks adopted institutionally and contributed to the IDEAL international bank.
- Recognized as Outstanding Facilitator for CPD workshop sessions (2012–2013).
- Developed interactive HTML5/SCORM-compliant learning resources and digital quizzes for student self-directed study.

RESEARCH & SCHOLARLY WORK

Research Interests:

Medical education research · Student assessment and psychometrics · Program evaluation · Professionalism · Team-based learning · Questionnaire validity · Technology-enhanced learning · Generative AI in education

Selected Works & Publications:

- What are the Attitudes of Medical Students at Jazan University toward Professionalism? (submitted for publication)
- Evaluation of Team-based Learning as a New Instructional Method in Jazan Faculty of Medicine.
- Students' Course Evaluation: The Use of Factor Analysis in Determining Reliability and Validity of the Questionnaire Instrument.
- Variations in the Anatomy of the Human Thyroid Arteries (MSc research, University of Khartoum, 2006).
- Sonographic Evaluation of Anterior Knee Pathologies in Sudanese Population (MSc research, Al-Zaiem Al-Azhari University, 2008–2009).

CONFERENCES & PROFESSIONAL DEVELOPMENT

Conferences Attended:

- AMEEMR Conference 2013 – "Quality in Medical Education: Assessment, Social Accountability, and Accreditation", Riyadh, Saudi Arabia.
- 1st Qatar Medical Education Conference – "Improving Quality of Care Through Medical Education", Doha, Qatar, 2012.

Selected Workshops Attended:

- Assessment Item Writing – University of Sharjah & IDEAL Consortium, UAE, 2014.
- OSCE for Formative and Summative Assessment – AMEEMR, Riyadh, 2013.
- Improving Educational Research – KSAU-H, KSA, 2013.
- Evaluating Clinical Teaching – KSAU-H, KSA, 2013.
- Competency-Based Medical Education and Milestones – Weill Cornell Medical College in Qatar, 2012.
- Integration of Basic and Clinical Sciences in the Medical Curriculum – Weill Cornell Medical College in Qatar, 2012.

- Conducting Research in Medical Education: Getting it Started – Weill Cornell Medical College in Qatar, 2012.
- Improving Medical Licensing Examination in Sudan – Sudan Medical Council, 2009.
- Multiple Choice Questions Item Writing – Sudan Medical Council, 2009.
- Assessment & Evaluation – Sudan Medical Council, 2009.
- Musculoskeletal Ultrasound Workshop – Al-Aziem Al-Azhari, Sudan, 2009.

DIGITAL & TECHNICAL COMPETENCIES

Educational Technology & Digital Learning Design · Moodle LMS · SCORM / e-Learning Content Packaging · Interactive HTML/JavaScript Learning Resources · Computer-Based Testing Systems · Microsoft Office Suite · SPSS (Data Analysis) · Educational Data Analytics · GitHub Pages Deployment · Generative AI Tools for Education · Apple macOS Applications

PROFESSIONAL AFFILIATIONS

- Association for Medical Education in Europe (AMEE)
- Association for the Study of Medical Education (ASME), UK
- Team-Based Learning Collaborative (TBLC)
- Healthcare Data and Analytics Association (HDDA)
- Sudanese Medical Association (SMA)
- Sudan Medical Council – Registered General Practitioner (Reg. No. 10278, April 2000)

VOLUNTEER & COMMUNITY SERVICE

- Volunteer, Health Section – Sudanese Red Crescent Society (1998–2002)

LANGUAGES

Arabic – Native **English** – Fluent **Romanian** – Fluent
